

12.30.070 – Traffic signals

The City may require the developer to install traffic signals at intersections in accordance with design standards of the Illinois Department of Transportation. Should traffic signals not be warranted immediately, but in the future not to exceed five years after 100% build out of the platted area, or if the intersection is not part of a subdivision plat within five years following the recording of the plat of street dedication, at the election of the City, the City and developer shall enter into a signalization agreement, whereby the developer or a designated special service area would at a future date pay a portion of the cost of traffic signals. The need for traffic signals will be based upon Illinois Department of Transportation warrant standards.
